

# ENVIRONMENTAL POLICY

Lloyds Security Services (the Organisation) recognises that, through its day-to-day business and operational activities, it has an impact on the environment.

We are committed to minimising that impact, preventing pollution and eliminating any unnecessary damage to the environment from our operations.

Through our environmental programme, we are working to integrate environmental management into all our core business activities. As such we will endeavour to ensure our policies and business actions promote the consideration of the environment, sustainable development and compliance with all relevant environmental legislation and regulations.

Lloyds Security Services has developed a set of guiding principles (vision and values), from which some of our environmental objectives and targets have been developed.

Lloyds use objective and targets to measure environmental improvements and will continue to monitor review our environmental performance and policies.

Lloyds will strive to:

1. Continuously improve our environmental performance;
2. Encourage and Actively performing recycling; promoting the principals of the waste hierarchy within the scope of our operations;
3. To use efficiently, and where practicable reduce, the consumption of utilities and consumable materials.
4. Encourage our suppliers to minimise the impact of their operations on the environment through our procurement policies and practises;

Finally, the above cannot be achieved without the commitment of all staff within Lloyds, The Management demonstrate their commitment by providing the resources, agreeing the organisational structure and endorsing this policy.
